RE: Flavor-Release Beta-Hydroxy-Ester  
Compositions of Grubbs and Houminer  
Our file PM 1019; Your ref 81-2

Dear George:

Enclosed is the above-noted executed application ready for filing in the USPTO. Please note that on page 27, the formula for the pyrolysis product, benzaldehyde was corrected. This is the only change made in the application and you may wish to note it on your file copy.

Everyone appears to be quite pleased with the final application and we all appreciate your fine effort in preparing it.

Sincerely,

Susan A. Hutcheson
